Bug in New Edit Content Experience

We use the Site or Folder field, to establish permissions of a piece of content. Unfortunately, you the system limits showing folders to only like 15-20, and the search function does not work. As you can see from my recording, I'm looking for the www.canr.msu.edu/demo folder to select on the Accordion Menu content type. when I search for the demo folder, nothing comes up, and it won't let me scroll more or select more folders for it to show.

Hi Brad,

Let me look to recreate this locally and I'll get back to you as soon as possible. Upon first glance it does look like a bug.

Thanks,

****For any site outage—even if reported during regular support hours—please call our Critical Care line at 1-800-509-1676 to ensure continued support after hours.****

Hi Brad,

This looks to be a known issue.

Here is the current gitissue ticket for visibility. <https://github.com/dotCMS/core/issues/34505>

Please confirm how you'd like us to proceed:

Option 1: Keep this ticket on **hold** — we'll update you once the fix is released.

Option 2: **Close** this ticket now — you'll track updates directly through GitHub and your CSM.

Our development teams work in 3-week sprint cycles. Each issue moves through:

- **Triage & Evaluation** – Review and prioritization
- **Fix Development & Testing** – Implementation and validation
- **Release / Backporting** – Deployment to supported versions

Because fixes are released in planned sprints, timelines vary. If the issue becomes business-critical, please reach out to your **CSM** to discuss prioritization.

Please let us know your preference — whether to keep this ticket on hold or close it now.

Thank you for your patience and understanding as we work to resolve this.

****For any site outage—even if reported during regular support hours—please call our Critical Care line at 1-800-509-1676 to ensure continued support after hours.****

if you want to throw it on hold for me, that'd be great

by **Nathan Hildebrandt** on **Fri, 6 Feb at 3:12 PM** as **Outbound email**

Hi Brad,

Will do, I'll place the ticket on-hold and we'll reach out when a fix is in place.

Thanks,

Hi Michigan State University (CANR),

We wanted to check in regarding Ticket #35367 (GitHub #34505). This issue has not been scheduled for the current sprint. Our team will review it for inclusion in an upcoming sprint, and we will reach out with a timeline update in approximately one month.

We appreciate your patience and understanding.

Best regards,
dotCMS Support

by **Brad Everett** on **Tue, 16 Jun at 11:21 AM** as **Public note**

this has not been deployed to our system. Still doesn't work

by **Brad Everett** on **Tue, 16 Jun at 11:27 AM** as **Public note**

Here a screen recording. you can only see like 20 folders

by **Daniel Silva** on **Tue, 16 Jun at 11:50 AM** as **Outbound email**

Hi Brad,

I just tested on your dev instance and noticed the same as you. I am checking this with the team and will come back to you asap.
