Script with empty id and charset is getting injected

When we pass our pages through HTML checker (<https://validator.w3.org/nu/#textarea>) then these violations are shown:

These are getting triggered by this script getting injected and it seems, by keywords like "utm_id", "utm_source", that these are dotCMS SDK issues.

SDK versions in our package.json:

```
"@dotcms/angular": "1.4.0",
"@dotcms/client": "1.4.0",
"@dotcms/types": "1.4.0",
"@dotcms/uve": "1.4.0",
```

Page link where HTML violations are noticed: <https://rbc-gam-retail.dotcms.cloud/ca/advisor-support/resources/wealthlink>
(Note: these violations appear on all pages, not only wealthlink)

dotCMS environment: <https://rbc-gam-retail.dotcms.cloud/dotAdmin/#/c/site-browser?mId=b7ab>

Comments

by Ivan Rozbytskyi on Tue, 23 Jun at 6:55 AM as Public note

```
<script type="text/javascript" id="" charset="">(function(){function b(a){var c=new URLSearchParams(window.location.search);return c.get(a)}function h(){try{var a="__sessi
sessionStorage.setItem("utm_source",f);g&&!sessionStorage.getItem("utm_medium")&&sessionStorage.setItem("utm_medium",g)}}})();</script>
```

by Nathan Hildebrandt on Tue, 23 Jun at 9:12 AM as Outbound email
Hi Ivan,

Let me look into these and as soon as I have any information to share I'll reach out.

Ticket URL: <https://helpdesk.dotcms.com/helpdesk/tickets/38053>

Thanks,

****For any site outage—even if reported during regular support hours—please call our Critical Care line at 1-800-509-1676 to ensure continued support after hours.****
